

Easy trip, Fantastic voyage!

Day One 第一日目

You will be picked up from your hotel by a full air conditioned SUV (instead of the common tourist minibus) and driven around Bali's unbeaten tracks, including the panoramic green foliage of the rice paddy fields of Tabanan on the northwestern side of the island.

You will be able to stop and take photos as well as to enjoy refreshing pauses at the numerous attractions along the way. This unusual route allows you to explore the best of the other side of Bali and skip the grueling traffic of the southern end. The northwestern seaside route of Pemuteran offers a fantastic view of calm water where diving, snorkeling and an array of pearl oyster farms abound.

Arriving at the meeting point in Gilimanuk, you'll be escorted to an exclusive boat where the usual one-hour ferry ride is cut to an only five-minute crossing directly to the private jetty of the Ketapang Indah Hotel.

Relax at your beautiful cottage in the coconut-tree surrounded Ketapang Indah Hotel and enjoy the view of Bali from its near neighbor of Java. A sumptuous lunch is served before you start your afternoon city tour of Banyuwangi, which includes visiting a traditional market, a friendly village, and Chinese temple via a becak pedi-cab. Then it's back to the hotel for dinner and a relaxing overnight stay. Some footage of Ijen is presented while you enjoy your dinner.

The Sulfuric Lake Reflects Eerie Color

Stop Over

Coffee Plantations

Day Two 第二日目

After an early wake up call and breakfast, a four-wheel drive vehicle carries you through coffee and clove plantations and around the village and then into one of Java's last rainforests, shrouded in clouds along the lower slopes of Mount Ijen. You emerge from the forest's giant ferns and rich wildlife at the ranger station, where you will begin the 90 minute hike to the Ijen crater, traveling along a shady trail with spectacular views. You can rest along the rim of the volcanic crater lake, which is at an elevation of 2,883 meters.

The lake's eerie colors and the smoke wafting from the bright yellow sulphur deposits along the shore create a landscape both desolately barren and vibrantly alive. You will see the miners descend into the crater and re-emerge carrying up to 80 kilograms of ore on bamboo baskets up the treacherous path. After absorbing this unique scene you will walk down the mountain, returning to the hotel for lunch and perhaps a refreshing dip in the pool before leaving for Bali. You will arrive back at your hotel in Bali by late afternoon.
